A NEW WORLD OF LUXURY, COMFORT AND HIGH TECHNOLOGY

Designed by the V. Garroni design group, the Prestige 60 impresses with the fine balance between the purity of its exterior design and the elegance of the light filled interior furnishings. The hull design was entrusted to M. Peters, one of the most renowned yacht designers worldwide for the performance and comfort of his motor yacht hulls. The luxurious interior furnishings display the choicest materials, harmonious colours and a standard of equipment reserved for these large cruising yachts. The generous volumes of space accorded to the enormous saloon, which has a separate dining area, to the 3 cabins – in particular the central owner's cabin – to the private head compartments and to the flybridge provide for life on board to be lived in absolute comfort.

High-tech. solutions, amongst which the infusion construction hull and the choice of IPS powered transmission have been prioritised, place the Prestige 60 right at the cutting edge of current technology.

First model of the Prestige Yachts division, the Prestige 60 is unique in providing a new world of luxury, comfort and technology which will hoist the flag of the Prestige brand to its highest level.
